# BICYCLE GUARD | DOUBLE ROUND

## **Colours**

Colours shown:

Steel model: RAL 6026

Colours can be selected from the RAL shades or other textured shades from the Akzo Nobel Futura range.

## ▶ Presentation

The bicycle guard encourages the development of cycling in the city.

The bicycle guard has been designed and developed in a specific Sineu Graff eco-design approach. They have a sober design. This design has been optimised to reduce raw materials and energy to manufacture.

# Description

### Steel model:

The bicycle guard is made of 2 round steel tubes Ø 33,7 mm and 2,9 mm thick, bent and welded by 2 spacers 6 mm thick.

**For optimum protection against rust and long-term performance,** the steel elements are zinc coated first, and go through our powder blast process (after having being cleaned and shot-blasted, the parts are coated with a primary layer of epoxy powder, followed by a second layer of polyester powder).

#### Stainless steel model:

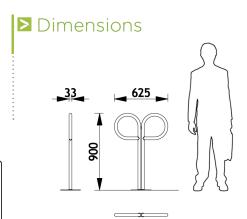

The bicycle guard is made of 2 round 316L grade stainless steel tubes  $\emptyset$  33,7 mm and 2,9 mm thick, bent and welded by 2 spacers 6 mm thick.

The bicycle guard is made of treated stainless steel after manufacturing, by sanding.

The sealing base plates are 5 mm thick.

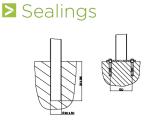

4 sealing points,  $\varnothing$  11 mm, for the base plate version.

Delivered assembled.
