

LITTER BINS | CITY RANGE - GARDEN CITY

GARDEN CITY

Bag holder: 36 L - Ref. **21 0230**

Bag holder: 60 L - Ref. **21 0210**

Liner: 31 L - Ref. **21 0220**

Liner: 50 L - Ref. **21 0200**

Colours

Colours shown:

Body: RAL 7035

Lid: RAL 8016

Colours can be selected from the RAL shades or other textured shades from the Akzo Nobel Futura range.

Presentation

The Garden City litter bin is part of a complete range of litter bins made of steel using a patented Sineu Graff assembly system, which gives maximum strength. The transparency of this urban furniture gives a discreet presence in its environment. It is particularly well suited to our Garden City range of resting furniture.

Description

The Garden City litter bin is made of a steel body with a 18 mm thick cast aluminium lid. The body of the Garden City litter bin is made of 8 mm diameter rods.

Bag holder version: the bag holder is made of steel and is hinged.

Liner version: the liner is made of 304 L stainless steel for increased durability and high resistance.

For optimum protection against rust and long-term performance, the steel elements are zinc coated first, and go through our powder blast process (after having being cleaned and shot-blasted, the parts are coated with a primary layer of epoxy powder, followed by a second layer of polyester powder).

The entire litter bin is fixed with stainless steel screws.

Closing is automatic and opening is to be done with a triangular key.

4 sealing points (Ø 14 mm).

Delivered assembled.

Dimensions

Liner

31 L - Ref. 21 0220 - Weight: 28 kg

50 L - Ref. 21 0200 - Weight: 42 kg

Bag holder

36 L - Ref. 21 0230 - Weight: 26 kg

60 L - Ref. 21 0210 - Weight: 39 kg

LITTER BINS | CITY RANGE - ROUND CITY CONFORT

ROUND CITY CONFORT
60 L - Ref. **21 0569 M**

Colours

Colours shown:

Body, lid and base: RAL 6034

Colours can be selected from the RAL shades or other textured shades from the Akzo Nobel Futura range.

Presentation

The round City Confort litter bin is part of a complete range of litter bins made of steel with a patented Sineu Graff assembly system, which gives maximum strength. The transparency of this urban furniture gives a discreet presence in its environment.

Description

The round shaped City Confort litter bin consists of \varnothing 8 mm metal wires in zinc and powder coated steel, of a lid in zinc and powder coated steel, 5 mm thick and of a 304 L stainless steel liner for increased longevity and high resistance.

For optimum protection against rust and long-term performance, the steel elements are zinc coated first, and go through our powder blast process (after having being cleaned and shot-blasted, the parts are coated with a primary layer of epoxy powder, followed by a second layer of polyester powder).

Closing is automatic and opening is to be done with a triangular key.

4 sealing points (\varnothing 13 mm).

Delivered assembled.

Features

Ashtray

It is made of stainless steel. The ashtray is emptied by opening a hatch mounted on 2 spring hinges. 1 liter = 400 cigarettes butts

Cigarette snuffer

It is made of stainless steel. It offers users a surface that they can stub out cigarettes on. The surface area has a cigarette-smoke swirl cut by laser, so users can easily recognise it. The cigarette snuffer is made of two 2-mm thick, superimposed, passivated stainless steel plates, to ensure the painted components remain undamaged. The cigarette snuffer is directly fixed to the litter bin body by rounded-head stainless steel rivets.
