

### Information about the product

|                                         |                     |
|-----------------------------------------|---------------------|
| Dimensions                              | 525 x 317 cm        |
| Safety zone                             | 985 x 710 cm        |
| Safety zone area                        | 54,33m <sup>2</sup> |
| Overall height                          | 269 cm              |
| Free fall height                        | 269 cm              |
| Amount of users                         | 45                  |
| Tallest element                         | 167 cm              |
| Heaviest element                        | 8 kg                |
| Product complies with EN 1176-1:2017-12 | Yes                 |
| Availability of spare parts             | Yes                 |
| Age range                               | 3-12                |

According to EN 1176-1:2017-12 norm, the product requires applying a safety surface according to the product's free fall height.

### Functions

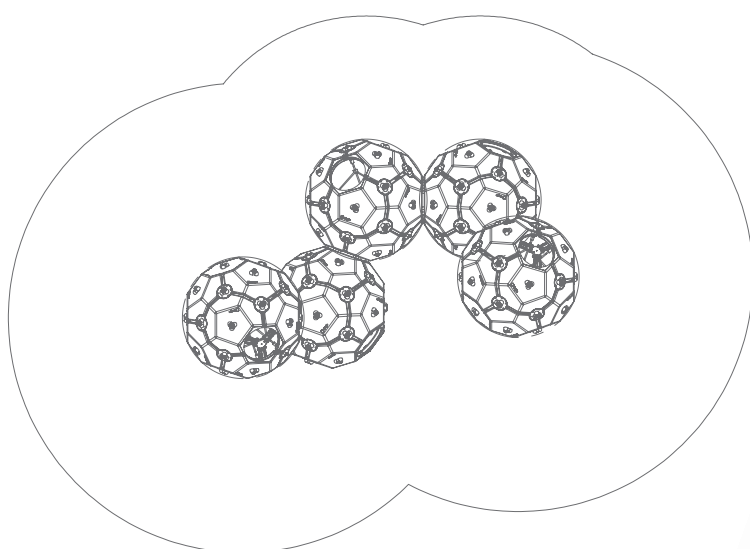

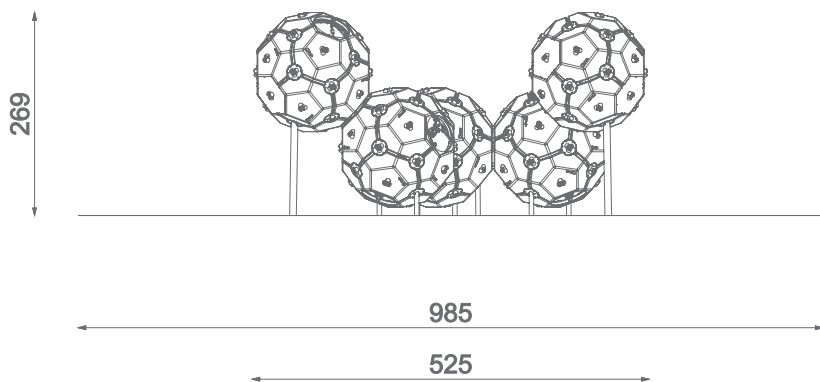

Climbing

Balancing

Socializing

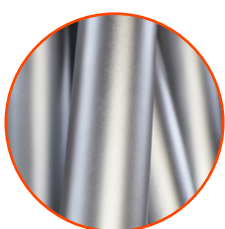

SCALE 1:100

## Materials

Moduls made of LDPE material using rotomoulding technique.

Elements made of stainless steel AISI304 totally resistant to various weather conditions.

Components made of high quality, coloured triple-layer HDPE 15 mm, resistant to moisture and UV.

16 mm diameter polypropylene ropes pp-multislip, with a steel core.
