

PRODUCT CODE:
50020

SPACE SURFER

COSMIC

DEVICE DATA

PROJECTION AND VIEW OF THE DEVICE

The device is difficult to access

Compliance with the PN-EN standard: 1176-1:2024-03

Number of users : 1

Age group : 2+

Width : 6.22 m

Length : 2.48 m

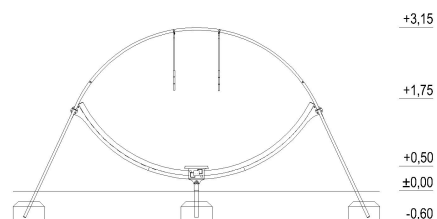

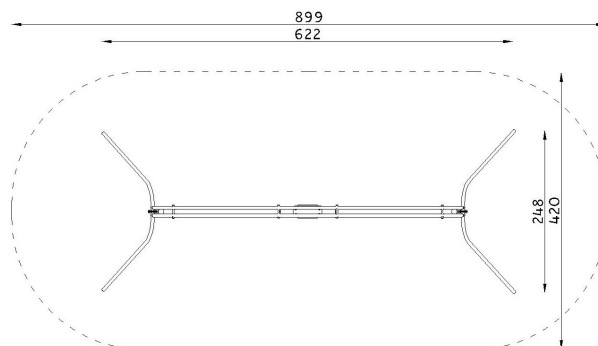

Height : 3.15 m

Minimum space required : 4.20 m x 8.99 m

Free fall height : 1.85 m

Fall area : 34.30 m²

Foundation depth : -0.60 m

COMPONENTS

Supporting structure: 1 set

Moving platform: 1 pc.

Handle: 2 pcs.

TECHNOLOGY

Construction: galvanized steel pipes, powder coated in gray

Footrest: self-supporting structure, coated with anti-slip material

Handles: polypropylene ropes with steel braiding, plastic ends

Steel elements: hot-dip galvanized steel, powder-coated

Caps: system caps made of plastic, dimensions adapted to the mounting screws used

Foundations: wet poured foundation footings , made of concrete class C12/15 or better

Due to continuous improvement of technical solutions, the presented drawings, including colors and dimensions, may differ slightly from the currently manufactured devices.
