

PRODUCT CODE:
10031A

BIRD'S NEST SWING

ROBINIA

DEVICE DATA

PROJECTION AND VIEW OF THE DEVICE

The device is difficult to access

Compliance with the PN-EN standard: 1176-1:2024-03

Number of users : 2

Age group : 1+

Width : 2.00 m

Length : 3.55 m

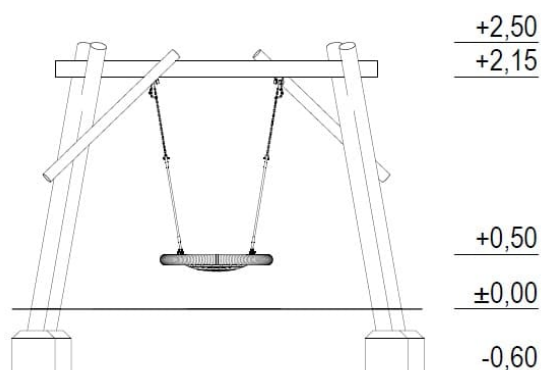

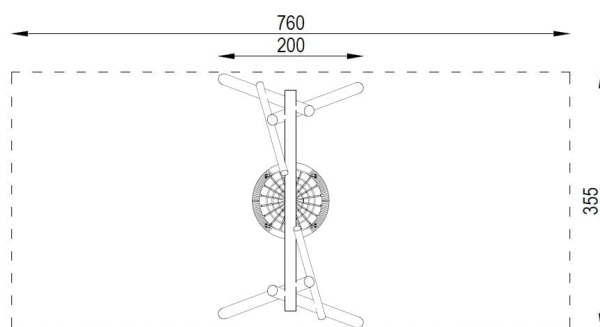

Height : 2.50 m

Minimum space required : 7.60 x 3.55 m

Free fall height : 1.40 m

Fall area : 26.98 m²

Foundation depth : -0.60 m

COMPONENTS

Supporting structure: 1 set

"Nest" seat: 1 pc.

TECHNOLOGY

Construction: acacia beams, naturally shaped, diameter 140-180mm, debarked with the pulp removed and sandblasted

Seat "nest": multi-strand polypropylene ropes multi-strand polypropylene, with a steel core, Ø 16mm

Chain: stainless steel

Caps : system caps made of plastic, dimensions adapted to the mounting screws used

Foundations: concrete class at least C12/15

Due to continuous improvement of technical solutions, the presented drawings, including colors and dimensions, may differ slightly from the currently manufactured devices.
